

Wheelie Bin Lifter

The Fork Mounted Wheelie Bin Lifter is designed to lift, move and empty 90 - 240 Litre Wheelie Bins safely. With this type of waste management becoming ever so common the problem of emptying coincides, therefore this attachment is the perfect solution. The winch has a fail safe return mechanical stop to prevent the bin from swinging back once the handle is released.

Standard Features:

- Winch complete with mounting bracket and 3mm diameter lifting wire
- Fixed rotating pulley wheel
- Zinc Plated Heel Pins for safe attachment to truck
- Painted bright orange for safety

Model	Nominal Capacity	Max Fork (mm)	Max Centres (mm)
IWBL-1	90-240	150 x 50	475
